I had started writing you  
a letter on March 18<sup>th</sup> &  
I wrote a little every week  
until last week & I stopped  
I think about killing  
myself every day. I don't  
go & do any more time  
for anyone else. Not  
even you, David! It angers  
me knowing that I was  
gullible enough to have  
married you & to be put  
in this position b/c you  
I both know that you  
did... I never shot that  
gun we had only been  
married 1 month before  
you were to turn your  
self in on that charge  
in Rankin County. and  
we only had the monito  
ID for the security cameras

before I  
for a month. ~~before~~  
cut them out. I had  
only seen 1 intruder  
on the cameras and  
that was the white guy  
in a white shirt & jeans  
with the bald head &  
a belly that ran up  
behind you as you  
walked out of the gate  
in the alley way next  
to the shop we live in.  
He got something off  
the back of (I believe)  
the red Vette that was  
still on a trailer and he  
ran off. You never ever  
heard him or slipped  
a beat! I had no gun  
so there's no way I  
could have fired any  
shots in the air. So  
**STOP FUCKING UP**

3

Just an FUI (like you  
give a dog) 3 weeks  
ago, JP forced his way  
back into our home  
and has pretty much  
held me hostage (not  
leaving the house).

You know there is no  
window to see out of  
to answer the door  
when someone knocks

so I didn't know who  
it was. This is not the  
1st time he has done  
this either. He normally  
does it when he wears  
his welcome but somewhere  
else & has nowhere to  
go. I can't tell the  
difference in his knock  
& the 1000 others that  
knock on the door all  
day, every day. We

Do not have a relationship at all, so if you are thinking that there is sex & kissing, you are wrong! He has destroyed our home & threatens to burn it down all of the time. Any new furniture I've put in the house he has put a chainsaw through the couch, he has set on fire. I have asked about 10 ABIS to help me get him out & none of them will but all of them have seen the chaos that I have been going thru. I tried to come to see you 2 Thursdays ago, but he locked me out of the house ~~over~~ night he ran Friday m.

~~Q S~~

at the door and shattered  
the passenger side glass  
out of the window  
proceeded to twist  
my leg until it almost  
broke and then sprayed  
ammonia in my face  
and threw several things  
at the truck (like a cross,  
a conventional oven, a  
fan and the ~~to~~ ripped  
the passenger side mirror  
off all b/c I said that  
I was calling the law to  
come & get him out of  
my house. Now I  
was locked up in the  
Yukon when he did  
this, scared to death,  
me & Thor. So then  
when he went back  
inside & locked the  
door again, I called

911. They showed up,  
& the female cop caught  
an attitude almost  
immediately & said that  
she was getting a domestic  
report on both of us. I  
never put my hands on  
him. Then they tell  
me that they were  
not going to go into  
~~our shop~~ without  
a warrant giving them  
permission to remove  
him & the judge would  
not be in until Monday,  
that I had better find  
somewhere to stay  
until I could come back  
Monday & get the judge  
to sign off on a warrant  
& get him out. Well  
fuck that, that is  
my house & he was

not going to win. So as soon as ~~we~~ left, they he opened the door & Thor & I went inside. He started cussing me & throwing a fit breakin' things & putting holes in the walls as usual, & I went to get some tea out of the refrigerator b/c we had been locked out for hours. Well when I poked up from shutting the fridge, I got hit right above my left eyebrow with a mason jar salt shaver full of salt. I remember seeing stars & I immediately grabbed my head where it hit & stumbled back 3 times & grabbed the

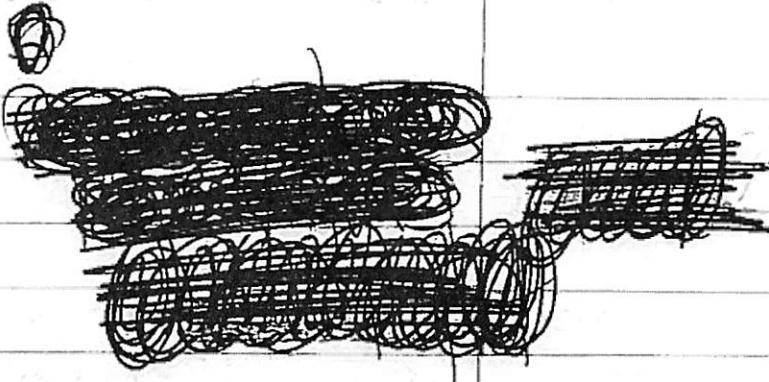

table behind me &  
he was still cursing &  
screaming I was bushing  
blood from my head  
the ~~bullet~~ hole went  
all the way to my skull  
and he had hit an  
artery so there was  
tons of blood. I got  
a bunch of stitches  
& one really long one  
I couldn't fire charges  
with him standing  
right over me (he had  
all the keys & could  
have stolen the truck,  
the dog & everything  
in the house & shop by

9

They would've caught him. JPD could give a fuck less! Knowing them, they would have failed me from the ED to jail like they did w/ Hale & me & Joe & I before. It's bullshit if you ask me, so hell no, I wasn't taking any chances!

Especially with me being on federal probation

(thank you David!) until I go to trial the day before Hope's bday  
[June 13th] [thanks]

David! 1 week before this he crushed my foot under the dash board of the Yukon trying to run it off in the 9 ft deep ditch

right across the street  
at the ~~end~~ beginning of  
Van Winkle Park Dr  
Anyway I have a Concussie  
& I just got my stitches  
out 3 days ago. I keep  
a headache every day  
I have a follow up appt  
with a brain doctor. I  
have a hard time remember  
things & I guess writing  
as you can see. I stay  
tired all the time &  
depressed bc my whole  
life has turned to shit.  
I just want to die!  
maybe I can get  
there this Thursday.  
I will try to get you  
some \$ on your books  
this week if I can.  
If I go to jail,  
everything you own

11

~~██████████~~ will go to  
the niggers around  
here b/c they'll know  
that I am gone & they  
will be breaking in  
immediately. Nobody  
will take Thor especially  
where I can get him back  
I was starting to send  
your things to Danny  
Williams, but he's never  
home. Non of your family  
wants to help you. We  
will loose your building  
(4643) in August to who-  
ever has been paying  
on it for the last 3 yrs.  
I owe \$1400 for 2016  
for 4643 & \$900 for 2017  
for 4645 I have tried  
selling any & everything  
but nothing is selling.  
b/c it does not run!

And I know nothing  
about it! If I was  
able to pay the past  
due property tax for  
4643 & you would  
be willing to sign it over  
to me & put it in my  
name, I would get it  
appraised & sell it. I  
would put  $\frac{1}{2}$  of the  
\$ in an account with  
your name on it &  $\frac{1}{2}$   
in an account with  
my name on it. And if  
you would let me add  
my name to the deed  
at #4645 I could get  
it rented out & split the  
monthly with you also.  
However, if I go to  
prison you & both  
lose it all. I am  
your next of kin, so

13

no power of attorney  
can be signed over  
by you ~~to~~ anyone  
other than me! unless  
I die! I'm just sayin'  
David ~~The FEDS told~~  
~~me to sell it all~~ & that  
what I have been  
doing b/c they mean  
what they say! I didn't  
do it to hurt you, &  
I still have a lot of it!  
But in 1 month you  
will have nothing if  
they lock me up. I sell  
all of that shit worth  
the lie that you told  
to get me locked up  
to keep me from selling  
your shit. I was going  
to pay the bills by  
Selling a little bit at  
a time & then buy  
property, a camper

and have a bank account with the bigger things I sold. \$1114643 & keep 464\$ rent it out & that would be used for commissary & maintenance or bills. I've done really well considering all I've had to fix & replace. I've had meathead & his wife & baby trying for free next door since the day that JR busted my head open. Do you think that meathead has even tried to get JR out? No! If anything he was fixing the bathroom sink a couple of days ago when JR jumped on me and he says he never heard a thing when I was screaming for help!

15

And screaming his name. I even caught JR trying to trade him on app on the phone or facebook market place, I can't remember, trying to trade Donald May's blue Z28 for a towsta truck for himself. He knows what & where everything is in your shop. You can ask any one, I am funny about anybody ever going in there! Especially JR bc I have woke up to being drugged a handful of times to him out there in your shop doing God knows what & why he gets mad when I tell him to get out of there too! I need Dusty the other night, come on

and put self tapping screws along the inside of the garage so that nobody can take the bolts off from the outside & peer the tin back in order to get in & steal shit. I believe that is how things have been coming up missing he is stacking stuff up in the back & having someone else steal it. One of the 3 times that he stole the Yukon, he loaded up 6 boxes of brand new race car parts & ~~was~~ was just trying to sell them for drugs & gas money. The only reason I found that out is bc a guy named Kenneth Drake said he recognized that he was

17

Driving Your truck & he knew you & JP had offered to sell him some race car parts so this dude decided to ride by & tell me I never got all the boxes back just 3... I really do not know what all he took. Yes I called the cops & reported the truck stolen all 3 times & they picked him up the last time he ~~had~~ called & took him & dropped him off in Pearl. What the fuck is that about? He is friends with an AB named Daniel Hussain who I met bc he saw my picture posted on JP's facebook page dogging him out & putting a rip on blast when he busted

my head open. Husain responded & came by to help me fix the front door where I could sn't & lock it again. Did he? No! Instead he acted like he didn't give a fuck that we were fighting & that JP wouldn't leave & I made this dude leave himself! He is Ed Mordu's nephew I believe? Even the dudes that own businesses up & down our street won't get involved bc they know he's crazy & they think that I keep taking him back when I don't. When I did have people show up to who his ass when he crushed

19

my foot, he wedged his  
self inside the house  
& ran electricity to  
the burglar bars on  
the inside of the window  
so that it would shock  
whoever tried to come  
through. He has tore  
the Yukon completely  
up. It makes me  
fucking livid & sick.

I'm either about to part  
it out or sell it all together  
He dirties it up as soon  
as I clean it, on purpose.  
I got a 7 day eviction  
notice & he said that  
he will stay until they  
come & drag him out.  
I can't afford to pay  
\$75 for 30 more days  
before they come & remove  
him. The front window

has been replaced twice  
The Shop garage door  
is broken b/c of him &  
fuck fixing it cause he  
turns around & breaks  
it again! He & Jax  
have you oldied up on  
the slick. Jax is snitchin'  
& setting people up to  
avoid going back to prison!  
JR broke 2 televisions,  
microwave, conventional  
oven, the stove, every  
mirror in the house,  
2 ceiling fans, caught the  
couch on fire!, broke  
2 lamps, 5 pairs of  
sunglasses, gave all of  
your broken watches  
to an AB brother named  
Sandoff. Oh yeah Sandoff  
didn't do shit to help me  
other than drive him away

21

from the house only to  
hang out with him for  
2-3 days & then someone  
brought him back &  
dropped him off & he  
hasn't left since. Moon-  
shine nor cowboy helped  
me either. Now this is  
1 of the 2 times that  
he gave me a black eye.  
He has broken 2 of my  
toes & helped in knocking  
out a tooth. My parents  
hate him & so do my  
kids. I beg him daily  
to leave. He doesn't work  
he doesn't contribute  
to shit. He eats me out  
of house & home keeping  
me broke & always have  
to clean up after him  
bc he doesn't lift a  
finger to help so I'm

Constantly cleaning I  
Stay broke & it takes  
me 5-6 hours before I  
can leave & run errands  
Thor does not listen to  
me any more, he only  
listens up to JD. I cannot  
stand this man  
David & I have NO BODY  
that will get him out  
of this house that will  
follow thru with it.  
Every one talks too  
much shit & folds  
& I'm watching everything  
turn to shit. I hate  
my life. Dusty lives  
in ~~the~~ his camper in  
front of the bldg next  
door (4643) and runs  
off my lights (Power)  
& barely gives me \$10  
a week & apd. It takes

23

an act of congress to get  
him to do shit. Meathead  
& his wife aren't doing  
shit & haven't done  
anything I've asked  
about helping me in  
getting the building  
that they're staying  
in cleared out either.  
They piss in a pitcher  
I let them borrow &  
shit in a trash can  
& have set up body  
traps everywhere  
where I can get  
in the house. I told  
everyone that they  
have to leave by May  
1st! Dusty, meathead  
& his family. You know  
dumbass Jo won't  
go b/c he can't find  
anywhere that wants

CCW 101

I least you'll still have something when you get out & I'll do all that I can to be there for you. You fucked up, own it, give it to God & let it go. I will hold no more hard feelings towards you for keeping me from my babies. Give those other 2 assholes did then I would if you did the right thing and took it all back and told the truth. Your sentencing date is rescheduled for June 21st. I suppose that you are planning on testifying against me?? That's fine, I'll do the same! I can't accept

I know that works for

at the JPD & see what  
else I can do. You  
have made my life  
very difficult & now  
we are going to loose  
it all b/c of your  
selfish stupid ways.  
Go to them & tell them  
that you lied so that  
they will drop this  
bullshit you made up!  
Don't chance it all  
David! So what, you  
get time & a surgery!  
Charge. I'm not X

I'll repeat it, if convicted  
million times, but will  
live you forever for  
getting me & those that  
love especially Thor  
my kids. We will loose  
now, dumbass!

Think about this  
hope that God
